

05_Project_Development

Project Development Phase

The Project Development Phase contains the actual implementation evidence of the project. The complete project/repository source code is uploaded to GitHub during this phase.

1. Development Objective

The objective of this phase is to implement the planned application by developing the required backend, frontend, database, authentication, planner/recommendation features and supporting files.

2. Implementation Files

S.No.	File / Component	Purpose
1	app.py	Main application
2	auth.py	Authentication module
3	database.py	Database handling
4	models.py	Data/database models
5	recommendations.py	Recommendation functionality
6	app.js	JavaScript functionality
7	auth.html	Authentication page
8	base.html	Base HTML template
9	details.html	Details page
10	history.html	History page
11	index.html	Main/index page
12	planner.html	Planner page
13	styles.css	UI styling
14	requirements.txt	Software dependencies
15	__init__.py	Python package initialization
16	env.example	Example environment configuration

3. Development Activities

- Develop the main application and backend components.
- Implement authentication and user-related functionality.
- Connect and manage the project database.
- Develop planner and recommendation functionality.
- Create the required frontend pages and UI styling.

- Integrate the project modules into the complete application.
- Maintain the required dependency and environment configuration files.

4. GitHub Repository Upload

The complete project/repository source code and supporting files are uploaded to the GitHub repository as implementation evidence for the Project Development Phase.

5. Security Note

Do not upload a real .env file containing passwords, API keys, database credentials or secret keys. Use env.example for example configuration values.

6. Phase Completion Evidence

The uploaded repository files serve as evidence that the planned project has been implemented. Further testing, documentation and demonstration are handled in the subsequent project phases.
